WHITE CLOUD, KANSAS: Thursday, : : November 26, 1868

THE RAMBOAD HITCH .- It is now stated that the Missouri Pacific Railroad Company have agreed to build the railroad from Leavenworth to the northern line of Kansas, and to have it in running o der by the end of next Fall, if they can get the right of way through Leavenworth City. But some of the short-sighted people of that city, who seem to control the matter, are determined that all railroads coming to Leavenworth, shall stop there-that no road shall run directly through the city, but that freight shall be through to the railroad on the opposite in so important a matter as a railroad Southern Nebraska will not consent to to support himself. Petitions are in circulation in Atchison County, to secure a vote upon the question of subscribing \$150,000 in aid of this route; and if successful, the road over this route, and to the northern line of the State, will be built next Summer.

THE OLD COMPLAINT .- If our subscribers in Doniphan and Brown Counties have failed, on several occasions of late. to receive the Chief the same week of its publication, they may charge it to the account of the nuisance known as the stage, which ross between St. Joseph and this place. It is run to suit the convenience of the proprietors and drivers, not to accommodate the public, according to contract; and frequently it does not come this far up for several days at a time, but turns back from some point below. This sort of thing has cost us hundreds of dollare; but we can't remedy it. We have tried every way in our power, and failed. Officers who are paid to see that mail contractors perform their duties, have never been over the route, and pay no attention to complaints made to them.
